AUTUMN FW 2021

# AUTUMN

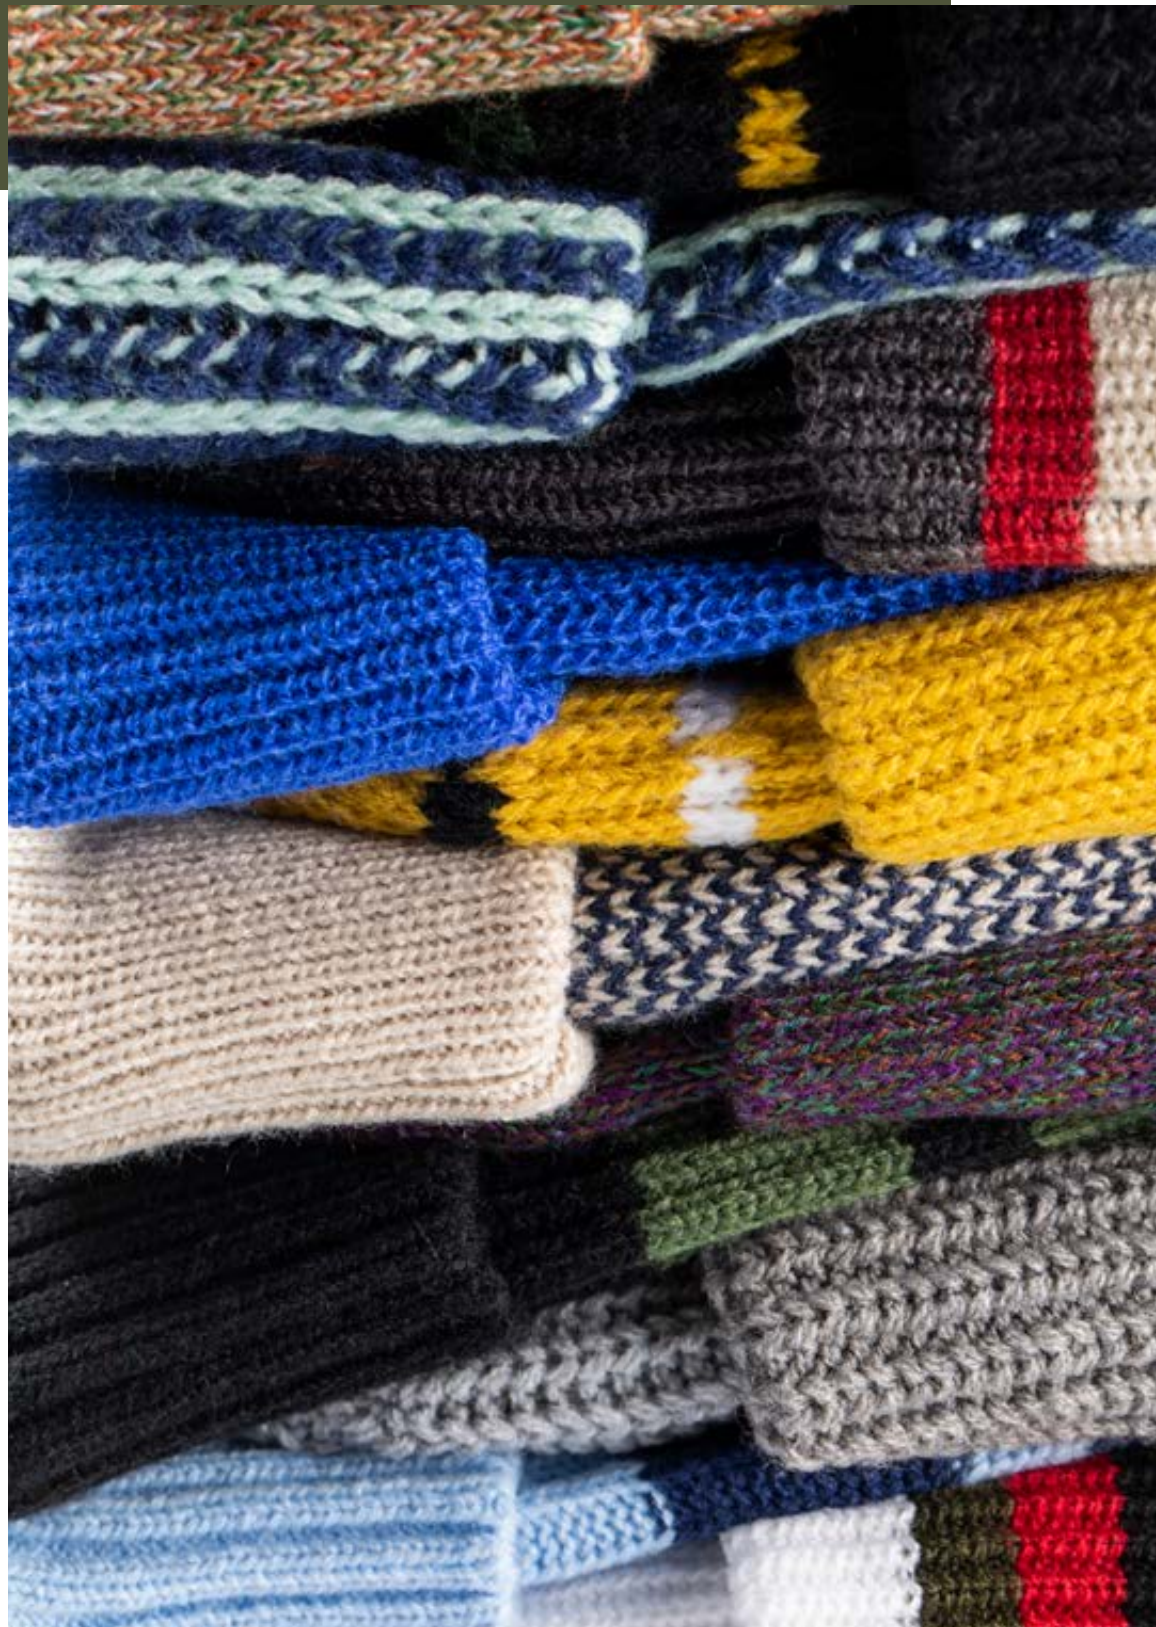

Season Two. Like everyone, the last year felt like 12 mini years wrapped up inside one big one. The challenges we faced tested us both personally & professionally, and in the end we're better for it. We got to focus on what was important. For Autumn, that meant putting our heads down and just doing. There were so many reasons to be distracted, we decided to turn off the TV and do what made us feel best. We explored new hobbies, got reacquainted with old ones, spent more time outside than ever before and the influences from all of this made its way into our design. You could say we were forced to grow up fast. The line is larger, with more depth behind each fit and category, and overall is setting the tone for where we want to go for years to come.

Fall/Winter 2021. We're appreciating all the little things a little more now.

Entering season two, we wanted to establish a program that helps in improving the world around us. Share the Wamth is our message and we will be providing 1,000 new beanies to homeless organizations in Salt Lake City, Burlington, VT and Edmonton, CAN during the Autumn season of 2021.

The goal is to help people in need of staying safe & warm and we hope to expand into more cities & organizations every year.
